

# Fence Energizer Systems

## Product Details

**Name:** Ultra-Shock Energizer  
**Category:** Energizer  
**Model Number:** SS-4000  
**Description:**

- UL listed self-diagnostic AC powered electric fence energizer.
- Indicator lights show strength of electrical charge on fence-high, medium, low insufficient.
- Shows if circuit board is operational for easy repair analysis.
- Fused pane

## Product Details

**Name:** Battery-Operated Fence Energizer  
**Category:** Energizer  
**Model Number:** SS-2000  
**Description:**

- Ideal for remote areas where electricity is unavailable.
- Operates off a 6, 9 or 12 V battery.
- We recommend a 12 V marine-type battery for battery savings.
- Battery clamps included.
- One year limited warranty.
- Range up to 1 mile.

## Product Details

**Name:** Digital Voltmeter  
**Category:** Accessory/ Maintenance  
**Model Number:** A-55  
**Description:**

- Measures the voltage on an electric fence.
- Has a range from 0.1-9.9 KV.
- Operates off a 9 V battery.
- Blister packed on peggable card.
- Works with peak discharge, intermittent fence energizers less than 10kV. (Not recommended for SS-505, SS-525, SS-600, SS-650, SS-725, and SS-750 energizers.)

## Product Details

**Name:** Fence Alert Tm  
**Category:** Accessory/ Maintenance  
**Model Number:** A-66  
**Description:**

- Clips onto fence wire or tape.
- Flashing light indicates low fence voltage.
- Light can be seen from up to one mile.
